Eclipse Ballistic 9.8

Eclipse is built by Ballistic RIBs to a military spec and is now used as a dive platform, safety boat and media platform. The deck is at the waterline meaning it is exceptionally stable platform, perfect when being used as a camera boat. Eclipse is also fitted with amenities such as a small galley for making hot drinks and a marine toilet as well as small wheelhouse for protection from the weather. These extra features mean that it is a vessel that you can easily spend a working day aboard without welfare issues cutting the day short.
