## Panther Blade 9

**Panther, the smallest but fastest vessel in the fleet, is a high speed, efficient catamaran. Boasting a sprint speed of 27 knots and a cruising fuel efficiency of as little as 2.5 litres per mile. Very stable and low to the water this is a great dive platform as well as media or surveying boat. Even though it is a high speed vessel, constant tick over speed can be as low as 1.5 knots. Low travelling speeds are essential in certain tasks.**

Builder: Powerglide Catamarans  
Capacity: 12 pax, 2 crew  
Construction: GRP  
Length Overall : 9.0m  
Max Beam: 4.0m  
Draft: 1.2m  
GRT: 6 Tonnes  
Certification: MCA cat 2

## Panther

### Statistics

Fuel: 450 Litres

Fresh Water: 100 Litres

Sprint Speed: 27 kts

Cruising Speed: 15-20kts

### Welfare

Heated wheel house and cabin area including; bench seats for passengers, toilet, galley (containing oven, water boiler, grill and catering utensils), 240v supply, below deck storage & Bluetooth compatible stereo system.

### Engine & Gearbox

Engine Manufacturer: Steyr Motors

Max Power: 171.5kW (230.0 bhp)

Gearbox Manufacturer: ZF

Model: SE236

Max RPM: 4000

Gearbox Model: 45A

### Electronic Equipment

2x Simrad NSS Evo 3 9" MFD's

Simrad 3g Radar

Class B AIS

2x Icom VHF's

1x CHIRP Transducer

3D Structure Scan

3kW Invertor
