Seeker Lochin 38

Seeker is In Deep's original vessel. Having been a dive vessel for its entire life it is the boat that pioneered deep mid Chanel wreck diving starting in the late 80's. Seeker has got an excellent reputation within the diving industry. The vessel underwent an extensive refit in 2023 and provides fast cruising speeds with a large fuel range and unrivalled sea keeping ability in this class of vessel. Suitable for commercial diving, survey work and media charter, it is a very versatile vessel that can be adapted to many applications.
